

26th Journées de l'Orthodontie

FRENCH ORTHODONTIC DAYS

PRELIMINARY PROGRAM

8, 9, 10 NOVEMBER, 2024
PALAIS DES CONGRÈS DE PARIS

JOURNEES-ORTHODONTIE.ORG

FRENCH FEDERATION OF ORTHODONTIC, ORGANIZER OF THE "FRENCH ORTHODONTIC DAYS"

Dear members of the orthodontic community,

In my capacity as Administrator of the Fédération Française d'Orthodontie, for another two years, along with Michel Le Gall, Scientific President, and Jean-Michel Foucart, Organizing Committee President, I'm delighted to welcome you to the 2024 French Orthodontic Days (Journées de l'Orthodontie 2024).

I would like to thank the Presidents of the FFO member Scientific Societies for their renewed confidence. Michel and Jean-Michel, as well as all of the members, both permanent and voluntary, of our organization's governing bodies, have shown a remarkable commitment to the unmissable event that the French Orthodontic Days have become. Thank you all very much.

The topic of the next two meetings will be quality of care.

That is the ultimate goal of any healthcare professional who interacts with human beings, rooted in their very essence. It has also become a necessity for our profession, which has been battered in recent years by professional course deviations not always in line with principles of quality.

But mentalities are changing.

First and foremost, those of patients who are beginning to comprehend the complexities of orthodontic treatments, and are looking at so-called miracle procedures with a more critical eye.

Those of practitioners, whose training requirements and critical thinking, here too, have fortunately become sharper.

Those of teaching staff, who are increasingly committed to ensuring that the young practitioners, who are the future of our profession, receive training on par with the quality they are entitled to expect in Schools of Dentistry and Medicine.

Thank you, dear delegates, for your participation in the 2024 French Orthodontic Days.

Emmanuel FRÈREJOUAND

Administrator of the FFO

SFOPA	President: Yves TRIN
SMODMF	President: Jean-Baptiste KERBRAT

GUEST SCIENTIFIC SOCIETIES:

SFMDS	President: Christine BOEHM-HUREZ
SFSCMFCO	President: André CHAINE

A WORD FROM THE PRESIDENTS

Dear Catherine,

I would like to express my deepest gratitude for your exceptional commitment as former Scientific President of this incredible event.

Your tireless dedication to excellence and your enlightened leadership have been key elements in the success of the last 2 editions of the French Orthodontic Days (Journées de l'Orthodontie). You brought unrivaled passion and energy to the planning and coordination of this major event for our profession.

On behalf of all the various committees, I'd like to thank you for your hard work, dedication and expertise.

With all my gratitude.

The Queen is Dead, Long Live the King!

Dear friends, colleagues, practitioners, researchers and orthodontic enthusiasts, we find ourselves at the dawn of a new and exciting era as we prepare to host the French Federation of Orthodontics' 2024 Congress, the renowned French Orthodontic Days. Our central theme for these two years - «Perfection, no - Excellence, yes» - raises a profound question that embodies the constant evolution of our profession. Orthodontics is much more than a quest for perfection. It is based on excellence in understanding our patients' individual needs, mastery of the latest techniques, and commitment to the highest ethical standards. This Congress will provide an ideal opportunity to reflect upon these fundamental principles.

EXCELLENCE BEGINS WITH KNOWLEDGE: We are witnessing incredible scientific and technological advances in our field. New technologies such as 3D modeling, 3D printing, and telemedicine are revolutionizing the way we practice. These tools are enabling us to care for our patients in more personalized and effective ways. Excellence demands that we remain at the forefront of these developments, for the benefit of our patients.

EXCELLENCE DEMANDS HOLISTIC UNDERSTANDING: Orthodontics is not just about aligning teeth, but about understanding the impact on the patient's overall oral health and quality of life. Our role is not just to create the perfect smile, but to solve complex functional and aesthetic problems. Our excellence is measured in our ability to treat each patient holistically, taking into account their specific needs.

EXCELLENCE IS BASED ON ETHICS: Our profession is founded on the trust of our patients. Excellence means being responsible for maintaining the highest ethical standards. This includes transparency in our procedures, clear communication with our patients, and the protection of their privacy. We are healthcare professionals, and excellence in our practice means treating every patient with respect and integrity.

EXCELLENCE IS BUILT THROUGH OPEN EXCHANGE: The Orthodontic Days are also a valuable opportunity to exchange knowledge and experience. We invite each and every one of you to take an active part in the discussions, share your ideas and learn from others. This is how we all work together to achieve excellence in our profession.

Ultimately, orthodontics as a discipline is constantly evolving, guided by a commitment to excellence. Together, at the 2024 French Federation of Orthodontics Congress, we will explore these principles and chart a course towards greater excellence in orthodontics than ever before. We cannot wait to welcome you to these stimulating and enriching days, where excellence in orthodontics will be at the heart of every discussion and decision.

We look forward to seeing you at what we hope will be an exceptional Congress.

Michel Le Gall

President of the French Orthodontic Days Scientific Committee

Alexandra KERNER

Catherine TOMAT

Jean-Baptiste KERBRAT

Dear Friends,

It is with great pleasure that we welcome you to the 26th edition of the French Orthodontic Days, an event that emerged in 1998 with the bold vision of bringing together 12 Scientific Societies for an annual national conference. Over the years, this unique gathering has brought together all the players in the profession: practitioners, students, dental assistants, teachers and manufacturers, creating an unprecedented collaborative dynamic.

Since their inception, the French Orthodontic Days have evolved steadily, from a national event to a major European event. Last year, we reached a new milestone with almost 2,750 registrants and an exhibition covering more than 2,500 m². This success is the product of the unwavering commitment of a group of passionate volunteers, supported by a dedicated administrative team.

Under the guidance of Scientific President Michel Le Gall for the next two years, the very core of our Congress is now rooted in the constant pursuit of excellence, an aspiration that transcends borders.

For this year's event, the French Orthodontic Days are becoming even more international by welcoming a number of world-renowned speakers and by playing an active role in the French-speaking world. What's more, the conference now features simultaneous French-English interpreting, so as to better accommodate our colleagues from all over the world. The program includes over 40 scientific sessions, alternating between lectures, workshops, presentations for assistants and poster sessions. Explore the latest scientific advances, discover revolutionary approaches and broaden your horizons by taking part in the exciting discussions taking place in our different halls.

Once again this year, we are honored to welcome a prestigious guest for an unforgettable inaugural conference. Our colleague, Dr. Jean-Louis Etienne, specialist in nutrition and sports biology, explorer and tireless defender of the planet, will share his approach and vision with us.

We'll also be getting together for the FFO soirée, where the emphasis will be on friendly, memorable exchanges, and the renowned mentalist Viktor Vincent who is sure to dazzle you with his mind-bending feats.

The French Orthodontic Days are also about solidarity! From now on, a portion of the proceeds from our event will be donated to non-profit organizations: *Aide Odontologique Internationale*, *Pour un Sourire d'Enfant* and *Face au Monde* enable children from all over the world to come to France and benefit from the best techniques in facial reconstructive surgery.

This year will be marked by a profound absence affecting the French Orthodontic Days Organizing Committee. Our thoughts are with Christine Boehm-Hurez who, through her unfailing commitment from the very beginning and with her outstanding rigor, contributed enormously to the success of the French Orthodontic Days in becoming a benchmark event. Despite her discreet nature, year after year she succeeded in breathing life into our congress, always motivated by a drive for excellence and inspired countless young speakers to join us. And for that we are eternally grateful. The "*Graine de conférenciers*" award now bears her name...

So, together, let's kick off this 26th edition of the French Orthodontic Days with a bang! It is our sincere hope that this new international edition marks a starting point for new and fruitful collaborations, enriching exchanges and a renewed commitment to excellence.

Welcome to the 2024 French Orthodontic Days!

Jean-Michel Foucart

President of the French Orthodontic Days Organizing Committee

PREREQUISITES

This congress is aimed at practicing and retired healthcare professionals involved in orthodontics. No other prerequisites.

AUDIENCE

- Qualified specialists in orthodontics (private practice and/or salaried and/or retired)
 - Interns in dentistry/medicine Private and/or salaried dentists
 - Full-time teachers
 - Dental assistants Orthotists
 - Prosthetists
 - Other specialists (pediatricians, ENT specialists, pulmonologists, neurologists, speech therapists, physiotherapists, surgeons)
-

KEY INDICATORS

Attendance: **2,734 delegates in 2023**

Overall Satisfaction: **4,58 / 5**

(out of 1,107 responses)

PEOPLE WITH DISABILITIES

We are available to discuss your specific needs so that we can put in place the best possible accommodations for you.

Please contact **Ambre Hausermann** at:

E-MAIL: congres@ffo-info.org

PHONE: 01 84 25 70 66

CONDITIONS

DURATION

The congress will take place from Friday, November 8, 2024 to Sunday, November 10, 2024 (3 days with the pre-congress course / 2.5 days without the pre-congress course) and is structured as follows:

FRIDAY, NOVEMBER 8, 2024

8:30 AM

► **EXHIBITION OPENING**

9:00 AM - 12:30 PM

Pre-congress course
Assistants' Day

2:00 PM

► **OPENING SPEECH**

4:00 PM - 7:00 PM

Conferences and workshops

SATURDAY, NOVEMBER 9, 2024

9:00 AM - 12:30 PM

Conferences and workshops

2:00 PM - 5:30 PM

Conferences and workshops

SUNDAY, NOVEMBER 10, 2024

9:00 AM - 12:30 PM

Conferences and workshops

2:00 PM - 4:00 PM

Conferences and workshops

Breaks and Free time for lunch

TRAINING TYPE

Face-to-face sessions, with the possibility of watching certain conferences on the post-event video library.

LOCATION

PALAIS DES CONGRÈS DE PARIS

2, Place de la Porte Maillot - 75017 Paris

NUMBER OF PARTICIPANTS

Based on max. capacity of Level 2 of the Palais des Congrès de Paris

ACCESS

To register, go to:

www.journees-orthodontie.org,

Registration (Inscriptions) section.

The registration site will open in June 2024.

TEACHING RESOURCES AND METHODS

Speakers will give conferences with multimedia support, powerpoint or keynote presentations, educational booklets, instructional videos and filmed demonstrations throughout the duration of the Congress.

Delegates can also register for practical workshops.

EDUCATIONAL CONTENT

Details on the educational content of each session will be posted on our website:

www.journees-orthodontie.org,

Program section.

EVALUATION

POSITIONING:

Positioning questions are asked on the registration form.

LEARNING EVALUATION:

An evaluation questionnaire will be sent out after the course.

SATISFACTION EVALUATION

A satisfaction questionnaire will be sent out after the course, and is required in order to obtain a certificate of attendance.

RATES

Find pricing on the Orthodontic Days website: www.journees-orthodontie.org, **Registration (Inscriptions)** section.

PRE-CONGRESS COURSES

FRIDAY, 8 NOVEMBER - 9:00 AM - 12:30 PM

PRE-CONGRESS COURSE

Orthodontic management of missing teeth in the aesthetic zone 

**Ute SCHNEIDER-MOSER
and Lorenz MOSER**

 ITALY

Patients affected by missing teeth in the aesthetic zone due to agenesis or transpositions, impacted or retained teeth, tooth malformations such as dilaceration or enamel dysplasia, and the entire range of dental trauma may sometimes require unusual treatment approaches. The therapeutic challenge in these patients is to select 1. the most appropriate orthodontic strategy without the need for extremely sophisticated mechanics, 2. to keep treatment time within acceptable limits for not risking iatrogenic damages, e.g. major root resorptions and 3. to avoid the necessity for a future extensive implanto-prosthetic rehabilitation whenever feasible. Simple, but efficient treatment strategies for clinical patients with missing teeth in the upper AND in the lower esthetic zone will be presented to explain the pros and cons of space closure and space opening.

PRE-CONGRESS COURSE

**Attention to details as path to excellence.
From extraoral analysis to Artificial Intelligence** 

Stefano TROIANI

 SWITZERLAND

Excellence in orthodontics should be meant as producing predictably an high average quality of treatment, and not as an episodic exceptional case.

The only path to improve the average quality of work is attention to details. The course will provide ready-to-implement advices to improve finishing of both fixed appliance and aligner cases through proper cosmetic and occlusal diagnosis and sound biomechanics.

The Scientific President and the scientific committee thank the company GC Orthodontics Europe for contributing to the organization of this pre-congress course.

CONGRESS PROGRAM

DAY DEDICATED TO THE ORTHODONTIC TEAM

DAY DEDICATED
TO THE
ORTHODONTIC
TEAM

Session Leaders: E. ALLOUCH, L. LECOCQ

MORNING

OPERATIONAL OBJECTIVE(S):

- Designing and implementing talking points and practical exercises to encourage patients to adopt good long-term oral hygiene practices
- Getting to know yourself better and identifying your personality as a powerful speaker
- Identifying the keys to mobility in attitude and posture
- Developing flexibility and uniqueness in speaking
- Training and integrating appropriate and suitable body language, gestures and behaviors

Speakers: J. CHEVALLIER, D. BESSET DERYNCK

AFTERNOON

ASSISTANT/SECRETARY COMPETITION

OPERATIONAL OBJECTIVE(S):

- Explaining and summarizing your career path
- Analyzing your current professional activity
- Taking stock of and questioning your practice

Jury: E. ALLOUCH, L. LECOCQ AND M. LE BASTARD

CONFERENCES

HOW BEST
TO CARRY OUT
ORTHODONTIC
SURGICAL
PREPARATIONS

Session Leaders: J. ASKAR AND M.-P. SACHE

OPERATIONAL OBJECTIVES:

- Managing decompensation
- Evaluating cases with extractions
- Evaluating the various anchorages during mandibular arch preparation
- Deciding on one-stage or two-stage surgery
- Checking and optimizing preparation with models
- Combining virtual planning and orthodontic devices

Speakers: S. DESPLANQUES, R. FILIPPI, J. GODENECHÉ, M. LAURENTJOYE, A. MARINETTI, G. DEFFRENNES, F. MANACH, G. JOSEPH, S. NICOLAS, S. BENITSA

50 SHADES OF GRAY:
MANAGING
SENIOR PATIENTS

Session Leaders: I. BOUALLÈGUE AND S. CHAUTY

Keynote witness: P. CANAL

OPERATIONAL OBJECTIVE:

- Mastering the comprehensive transdisciplinary management of senior patients seeking orthodontic treatment

PART ONE

Speakers: M. TICHIT, A. ATLAN, J.-L. OUHIOUN, F. BENKIMOUN, C. MULLER, D. FEUILLET, K.-B. KIM

PART TWO

Speakers: V. MONNET CORTI, J.-B. CHARRIER, T. SCHOUMAN, J. COHEN LEVY, F. ROUSSARIE, H. GIL

English-French simultaneous interpreting
available during this session

PRELIMINARY PROGRAM

PATIENT CARE: A TEAM EFFORT

Speakers: C. FLORES-MIR, J. GHOURIL, L. MEDAWAR, K.-B. KIM, N. RUMIZ, S. PALMA, E. KANARELIS

AESTHETICS AND FUNCTIONALITY

Session Leaders: O. MATERN AND Y. TRIN

OPERATIONAL OBJECTIVES:

- Determining the possible contributions of AI to DTC management
- Assimilating the possibilities that AI and 3D open up into the management and visualization of mandibular kinetics
- Taking advantage of the possibilities offered by 3D smile visualization in both the vertical and transverse directions in terms of AI-assisted diagnosis

Speakers: I. BELAZI, G. CHRISTIANSEN, P. MOULIN, A. BENATTIA, A. KAMOUN, F. DARQUE

FACIAL AND CRANIAL SUTURES IN ORTHODONTICS

Session Leaders: P. GARREC AND J.-M. FOU CART

OPERATIONAL OBJECTIVES:

- Evaluating normal craniofacial growth in our patients.
- Understanding and recognizing its pathological variations.
- Comprehending the possibilities and limitations of the treatments used to treat them.

Speakers: J.-M. FOU CART, A. NASSIF, R. HOSSEIN KHONSARI, S. LAMBERT, M.-C. MEAZZINI

WHAT HAPPENS TO OUR PATIENTS AFTER ORTHODONTIC SURGERY?

Session Leader: P. CORRE

OPERATIONAL OBJECTIVES:

- Understanding the factors involved in deteriorating results after orthognathic surgery
- Identifying patients at risk of dissatisfaction with orthodontic surgery
- Interpreting the posterior vertical dimension and adapting indications accordingly
- Adapting post-operative care to patients' specific needs

PART ONE

Speakers: F. CHEYNET, A. PERILLAT, M. BOURTOUL, H. BERTIN, S. BENCHERQUY, P. BOULETREAU, T. SCHOUMAN, L. TAIARIOL, U. HELLER

PART TWO

Speakers: L. FRISON, P. GOUDOT, C. ALVARADO, S. RENAUDIN, E. RACY

SUSTAINABLE EXPANSION

Session Leader: M.-P. ABS AND Y. SOYER

OPERATIONAL OBJECTIVES:

- Recognizing and explaining transverse maxillary deficiencies and their impact on patients from childhood development through to their consequences in adulthood.
- Clinically illustrating the value of early intervention and demonstrating the practical applications of new RME techniques in CAD/CAM.
- Presenting the new applications of OFMR assisted by the latest generations of PRAS, and finally proposing an AI study of mass screening for these transverse maxillary deficiencies, a genuine public health issue.

Speakers: J.-B. KERBRAT, P. PERNET, Q. DE VOMECOURT, N. PAPELARD, J.-M. FOU CART, P. AMAT, E. RACY, A. CHOKRON, M. LAHLOU

English-French simultaneous interpreting
available during this session

PRELIMINARY PROGRAM

SESSION ON THE FRENCH-SPEAKING WORLD ORTHODONTIC TECHNIQUES IN 2024

Leaders: A. BEN AMOR, Y. SOYER, J.-M. FOU CART

OPERATIONAL OBJECTIVES:

- Analyzing the biomechanics of different orthodontic appliances
- Evaluating the possibilities and limitations of current orthodontic techniques
- Adapting orthodontic appliances to the patient's pathology

Speakers: S. RENGER, P. BERGEYRON, W. BEN AMOR JEMMALI, M. JENHANI, J. GHOUBRIL, R. ALIM, Y. LABIDI, Z. ABIDINE, I. ZETU, M. LACOB

A WORD FROM THE LEGAL EXPERTS

Session Leaders: Y. SOYER - J.-M. FOU CART

OPERATIONAL OBJECTIVES:

- Analyzing the resolution of disputes related to resorptions
- Anticipating disputes arising from treatment discontinuation
- The role of insurances and legal counsels in preventing litigation

Speakers: U. CASTANER, Y. SOYER, A. BERY, B. AKNINE, L. DELPRAT

THE KEYS TO ESTABLISHING CARE THAT IS MEDICAL AND INTERDISCIPLINARY

Session Leaders: R. DE PAPE, J.-M. FOU CART, P. GUEZENEC

OPERATIONAL OBJECTIVES:

- Identifying pathologies likely to benefit from multidisciplinary consultation
- Recognizing the key elements for creating a Multidisciplinary Consultation Meeting (MCM)
- Improving patient care pathways
- Performing multidimensional evaluations of apneic patients to propose personalized treatment
- Recognizing the indications for drug-induced sleep endoscopy
- Optimizing conventional treatments (CPAP, MASSs, positional)
- Suggesting alternative treatments (physical therapy, ENT surgery, orthognathic surgery, XII stimulation)
- Taking into account the diagnostic and therapeutic specificities of sleep-related breathing disorders in children.
- Determining the role of the occlusal plane and of muscle strength in the masticatory system and TMDs
- Understanding the basics of the clinical examination in physical therapy and identifying the etiologies for which re-education is a good option
- Determining the role of neuromotor reprogramming in interdisciplinary therapy
- Recognizing the role of PRP and Botox in the interdisciplinary therapeutic arsenal for TMJ pathologies
- Evaluating and screening patients at risk of TMJ dysfunction in order to provide them with better advice on what to do when symptoms appear and/or recur

PART ONE

Speakers: H. CHABANE, G. LEZMI, R. DE PAPÉ, A. THIBAUT-STOLL, C. PETIAU, D. BRICHE, A. GANEVAL, J. KAMM

PART TWO

Speakers: J.-L. OUHIOUN, E. DAHAN, P. GERENTES, S. VOUILLOT, J. KAMM, A. GANEVAL, R. DE PAPÉ

PRELIMINARY PROGRAM

ENAMEL OVER TIME

Session Leaders: M.-P. SACHE AND E. LE NORCY

OPERATIONAL OBJECTIVES:

- Adapting bonding techniques to pathological enamel
- Mastering enamel cleanup after removing orthodontic bonding material
- Identifying the causes of erosion
- Clarifying the causes of wear
- Planning for and controlling mechanical abrasion or stripping
- Planning the extractions of 6 MIH patients

Speakers: S. VITAL, L. HITMI, M. HERNANDEZ, S. LEGRIS, P. COLON, G. LECOCO, A. RICHARD

LET'S NOT MINCE OUR WOES, OUR PATIENTS MASTICATE

OPERATIONAL OBJECTIVES:

- Examining mandibular kinematics and detecting signs of masticatory dysfunction
- Explaining to patients the impact that mastication has on their health
- Developing prevention talking points for your staff, your patients and their families

Speakers: P. PAOLASSINI, F. BIGOT, I. SOUBIRON, G. BASSEZ, J.-L. RAYMOND, J.-C. MONIN, N. GOOSSENS

QUASHING COMPROMISE: THERAPEUTIC ALTERNATIVES

Session Leaders: A. MOREAU AND E. FRÈREJOUAND

OPERATIONAL OBJECTIVES:

- Understanding the notion of therapeutic alternative rather than the notion of treatment compromise.
- Extending treatment options to patients with particular characteristics.
- Bringing together the various players involved in interdisciplinary therapies to provide the individualized solution that patients expect.

PART ONE

Speakers: Y. SOYER, G. EINAR ARNASSON, F. FALKENSAMMER, C. LAPSOS, J. VON BREMEN, C. BOURGEOIS

PART TWO

Speakers: T. OLIVIER, J.-S. SIMON, M. JAISSON, O. REVOL, Y. JANSSENS, E. FREREJOUAND

PATIENT-FOCUSED: INDIVIDUALIZED TREATMENTS

Session Leaders: L. DELSOL AND M. LE GALL

OPERATIONAL OBJECTIVES:

- Establishing an initial diagnosis and appropriate therapeutic strategies
- Anticipating the orthopedic and orthodontic effects of our therapies
- Developing a clinical and functional approach to facial growth
- Designing a comprehensive, individualized treatment plan
- Integrating new technologies into your everyday practice

PART ONE

Speakers: M. GIRARD, L. DELSOL, S. TROIANI, M. JEANTET, M. MUJAJIC, J. YACHOUH

PART TWO

Speakers: G. MIRGHANE, S. TROIANI, M. LE GALL, F. HARRABI

English-French simultaneous interpreting available during this session

PRELIMINARY PROGRAM

EARLY CHILDHOOD AND ORTHOPEDIC - THE DOs AND DON'Ts

Session Leader: C. TOMAT

OPERATIONAL OBJECTIVES:

- Managing maxillofacial dysmorphism and dysfunction in children, from infancy onwards.
- Analyzing and comparing different therapeutic systems for prevention and correction.

PART ONE

Speakers: J.-M. SALAGNAC, C. PALUCH, P. PERNET, J.-L. RAYMOND, M.-J. DESHAYES

PART TWO

Speakers: P. FELLUS, S. HERMER, F. SAGON, A.-S. CHAROY, J. COHEN-LEVY, B. CASTANEDA, S. SEVERIN, F. CORDIER

CASE MANAGEMENT "PHONE-A-FRIEND": THERAPEUTIC SOLUTIONS FOR DIFFICULT CASES!

Session Leaders: S. HERMER AND S. CHAUTY

OPERATIONAL OBJECTIVE:

- Comprehensive transdisciplinary management of borderline cases

PART ONE

Speakers: L. CARPENTIER, C. MICHEAU, J. GODENËCHE, M. SAMAMA, J. ASKAR

PART TWO

Speakers: L. DELSOL, K. ABOULAZM, S. ELLOUZE, T. SCHOUMANN, A. CARLIER

ORAL COMMUNICATION

OPERATIONAL OBJECTIVES:

- Discussing the latest research topics in orthodontics
- Discussing the latest clinical studies in orthodontics

THE INTERNS HAVE THE FLOOR

MONIQUE CHOUVIN AWARD

OPERATIONAL OBJECTIVE:

- Presenting a subject quickly in a limited amount of time

GRAINES DE CONFÉRENCIERS

CHRISTINE BOEHM-HUREZ AWARD

Jury: C. CHABRE, G. LECOCQ AND M.-P. SACHE

OPERATIONAL OBJECTIVE:

- Discussing the first scientific works from new specialists in orthodontics

Speakers: M. GARCIA-MONTECINO, M. PILLON, B. SHAMSI-BASHA, I. ABBAOUI, R. EZZEDDINE, A. CHAPTINI, W. EL HAZZAT, R. OHANESSIAN, M.-S. CHELLI, T. SALIBA, S. KREICHATI, L. DRIOUJEC

CLINICAL RESEARCH AND FUNDAMENTAL RESEARCH

OPERATIONAL OBJECTIVE:

- Experimenting with new devices or protocols

PRELIMINARY PROGRAM

COMMISSIONS

SAOS COMMITTEE AND CLEFTS COMMISSIONS

UNITY IS STRENGTH!

Session Leaders: A. MAJOUREAU-BOURIEZ AND J.-B. KERBRAT

Keynote Speakers: J. COHEN-LEVY AND M.-C. MEAZZINI

PART ONE

Speakers: A. MAJOURAU-BOURIEZ, L. LAVERGNE-SAILLET, M. MANOUKIAN, M. SEMPEUR, M. SAYEGH-GHOUSOUB, C. FLORES-MIR, R. HOSSEIN KHONSARI, B. FAUROUX, M.-K. LÊ-DACHEUX, S. WARTELE, C. GUÉRIN, C. NEIVA, R. LUSCAN, G. LAVIGNE, B. PÉTELLE

PART TWO

Speakers: P. CORRE, B. GROLEMUND, C. BREUGEM, A. PICARD, I. BOUALLÈGUE, I. JAMES, R. DE HAAS, A. DE BUYS-ROESSINGH, B. KREPS, C. DISSAUX, J. CHAUVEL-PICARD, D. GAGET, C. INCORVATI

RARE DISEASES COMMISSION MANAGING AMELOGENESIS IMPERFECTA IN 2024

OPERATIONAL OBJECTIVES:

- Recognizing the semiological characteristics of amelogenesis imperfecta in the dental office.
- Explaining the treatment specifics to patients.
- Coordinating a care pathway to collaborate with the various disciplines involved in the management of patients affected by these pathologies.

Speakers: A. BLOCH-ZUPAN, S. HOUARI, M. DE LA DURE MOLLA, A. BERDAL, F. VAYSSE, S. LOPEZ-CAZAUX, M.-J. BOILEAU, D. WAGNER, C. TARDIEU, Y. MESSAOUDI

HALF-DAY DEDICATED TO ORTHOTISTS

WHICH APPLIANCES SHOULD BE USED IN THE EARLY TREATMENT OF CLASS IIIs?

Session Leaders: S. BÉNITSA AND J.-L. RAYMOND

OPERATIONAL OBJECTIVES:

- Presenting and comparing the different Class III splints
- Designing and manufacturing systemic orthopedic splints
- Presenting and explaining Planas Class III direct tracks
- Designing and manufacturing Planas Class III direct tracks

Speakers: P. PERNET, J.-L. RAYMOND, P. RAYMOND, B. DUTHERAGE, F. PANTIGNY, S. BENITSA

WORKSHOPS

SECRETARIES' WORKSHOP

Messaging Security

Session Chair: L. LECOCQ

OPERATIONAL OBJECTIVES:

- Raising awareness and explaining the risks related to messaging in the orthodontic practice
- Enabling participants to create and implement their own security protocol for professional messaging

Trainer: N. TRICHA

English-French simultaneous interpreting
available during this session

PRELIMINARY PROGRAM

SECRETARY WORKSHOP	Telephone Protocol Trainer: C. PINAUD
ASSISTANTS' AND PRACTITIONERS' WORKSHOP	What can we make with thermoforming? Trainers: K. BLERLOT, C. DE JONGE BLÉRIOT, B. GURGU
ASSISTANTS' AND PRACTITIONERS' WORKSHOP	Digital photography Trainer: G. LECOCQ
ASSISTANTS' AND PRACTITIONERS' WORKSHOP	Traceability and stock management Trainers: A. VIGIE DU CAYLA, G. VIGIE DU CAYLA
WORKSHOP	Uses for 3D digital files Trainers: M. LE GALL, L. PETITPAS
WORKSHOP	Digital and 3D printer set-up Trainer: A. BENATTIA
WORKSHOP	Mini screw anchors in animal models Trainer: M. SAMAMA
WORKSHOP	Manufacturing and designing "homemade" aligners: Live demonstration of a Class II clinical case with molar sequential retraction Trainer: J.-F. ERNOULT

CONTINUING PROFESSIONAL DEVELOPMENT-ACCREDITED SESSION

(SUBJECT TO THEIR BEING PUBLISHED)

IDENTIFYING AND DEALING WITH PHYSICAL ABUSE OR SUSPECTED PHYSICAL ABUSE OF A MINOR IN PROFESSIONAL PRACTICE

OPERATIONAL OBJECTIVES:

- Detecting danger signs in children
- Reporting serious concerns to contact people or bodies, administrative or legal authorities
- Describing and recognizing danger signs in children in cases of physical abuse or suspected physical abuse
- Illustrating telltale radiological features
- Explaining the various treatment options and care pathways and adjusting the course of action and alerting the appropriate resources and authorities

Speakers: M.-P. VAZQUEZ, N. KADLUB, V. DELLA VALLE, G. DOUIEB, B. LANGELLIER BELLEVUE, H. FORAY, T. IKOWSKI, G. WAGNER

English-French simultaneous interpreting available during this session
